

# Conservatories - A room to utilise all year round

## Complete Conservatories from CWG

As ever the CHOICES brand gives you an enviable number of choices for your conservatory - from the simplest to the more complex - at the same time offering you a wide range of performance criteria and most importantly, colour options.

The modern concept of a conservatory is to be able to use it all the year round, in equal comfort. With the subtle use of the high performance glass now available, this can be achieved - even to having Pilkington's Activ™ 'self clean' glass to help keep the roof clean!

So, from the 'lean to' with a polycarbonate roof to a 'P' shape with the very latest glazing - CWG can supply. There is even a choice of roof systems - either the famous and well tested Global roof or the equally famous and well tested Ultraframe - the choice is yours.

CWG can provide you with the complete conservatory, any advice required, all from one place - and hassle free.

Benefits of enhancing a *Choices* conservatory with a glass roof:

- ✓ Excellent thermal insulation reducing energy costs
- ✓ Warmer in winter months
- ✓ Cooler in summer months
- ✓ Dual action 'self clean' glass
- ✓ Reduced solar heat gain
- ✓ Reduced noise interference

### Self clean glass

The special ACTIV™ coating reacts with daylight to break down organic dirt. When water hits the glass instead of forming droplets it spreads evenly, running off in a "sheet" and taking the loosened dirt with it.

## Customise with Colour

**Why stick to the traditional white conservatory when colour is readily available.**

Customise your conservatory to suit your style and taste.

### Standard Foils Available both sides or on smooth white

Rosewood Mahogany Golden Oak

### Special Foils Available both sides or on smooth white

Black Cream Irish Oak White Ash  
Both sides Only

### Special Foils Available on smooth white only

### Pilaster, Couplers & Plinths

Pilasters and plinths are designed to enhance the appearance of conservatories, by offering period features and traditional detail.

- Pilaster corner post and 132mm inline coupler to suit our 70mm and Residence 9 systems
- The plinths are optional upgrades to further enhance the aesthetics
- Available in a range of colours

# Orangeries and Garden Rooms

## A new era in Conservatory Design

Orangeries and Garden Rooms are the latest developments in the conservatory market.

Combining the best of both worlds, with the light and glass of a conservatory and the walls and ceiling of an extension. Mimicking a traditional atrium style conservatory, with all the benefits of the latest technology.

'Livin Room' Orangeries are based on traditional building technologies. They add a touch of contemporary style to any home, bridging the gap between a conservatory and an extension.

Increase your sales by offering the latest innovations in conservatory design.

### 'Livin Room' Orangeries

The 'Livin Room' Orangery is the best of both worlds, combining light and space of a conservatory with the walls and ceiling of an extension.

'Livin Room' orangery with aluminium frames and multifolding door

'Livin Room' optional cornice detail

'Livin Room' internal pelmet

'Livin Room' incorporating aluminium multifolding doors

### Choices Garden Room Tiled Effect Roof

✓ Excellent thermal properties   ✓ Cool in summer - warm in winter   ✓ Added living space for all year use

#### Technical Specification:

- Roof 'U' value 0.17 (about 10 times better than polycarbonate)
- Fixed joint technology to prevent movement and cracked plaster
- Tile guaranteed for 25 years
- Warm roof construction and fast installation times

### Residence 9

For that truly traditional effect, why not consider Residence 9?
