# Timberweld® Advantages

Elevate the appearance of windows with the benefits of timberweld

- ✓ Captures the timeless appeal of original timber sash windows seamlessly.
- ✓ Patented technology ensures impeccable craftsmanship and premium finished products.
- ✓ Eliminates visible welds for a flawless, authentic look.
- ✓ Delivers superior aesthetics with wood-grained finishes.
- ✓ Enhances performance, strength, and durability.
- ✓ Available factory glazed or loose glazed.

# Timberweld®

## Choices

**Perfectly sealed, authentic looking timber joints**

Bid farewell to mechanical joints and embrace the impeccable artistry of Timberweld® while maintaining top-notch performance and aesthetics.

This innovative, patented technique delivers authentic timber joints that grace both the Sash and Frame.

The process produces premium finished products that closely resemble the traditional charm of timber joints on the entire "Residence Collection" from CWG.

## Timberweld® Videos

Timberweld® from CWG Choices

Timberweld® Versus Mechanical Joints

<https://cwgchoices.com/timberweld2>

## The Timberweld® Process

**Experience the future of PVCU joinery with Timberweld®, an innovative process that creates flawless, seamless joints, evoking the classic appeal of timber windows.**

Patented technology ensures premium aesthetics, superior performance, and timeless elegance in every product.

Step 1

TIMBERWELD® is unique and patented method of joining two sections.

Step 2

Profiles are cut to size, then ends milled before being welded or joined.

Step 3

No holes, just perfectly sealed corners.

## 'Choices' Residence Collection

The 'Choices' Residence Collection are all available Timberwelded.

By combining the timeless aesthetics of the Residence Collection with the flawless craftsmanship of Timberweld®, homeowners can enjoy the authentic charm of traditional timber windows without any visible welds.

# RunThru Horns

Choose from three functional options, including designs that meet the requirements of Part B of Building Regulations for fire escape.

**OPTION 1**

## RunThru Horn top hung over fixed pane

Top hung windows with horns, create an attractive alternative to the traditional vertical sliding window.

Whilst this is the slimmest and most cost effective RunThru horn option, it does not meet the requirements of Part B of Building Regulations. In this instance Option 2 or 3 should be considered.

**OPTION 2**

## RunThru Horn over Tilt and Turn inwards opening window

The Upper Sash - The top hung casement provides a convenient and ready source of ventilation. It can also be locked in a night ventilation position.

The Lower Sash - The lower sash is a Tilt and Turn window and as such can be tilted inwards for ventilation. It can also be turned 90° inwards for cleaning. Dependent upon size and position it can be used for emergency escape when the opening size must meet the demands of Part B of Building Regulations.

Min 450mm in either direction. Min 0.33m<sup>2</sup>

ESCAPE

1.4  
Double Glazed  
1.2  
With Low-E  
Plus

**OPTION 3**

## The full Tilt and Turn with Dummy Sash and RunThru horns

A window designed specifically for a home owner who requires the top opener over a fixed pane style, but has to consider Part B of Building Regulations.

To match a top hung over fixed pane style window, a full Tilt & Turn sash is fitted with a fixed dummy sash with RunThru horns. The result is a fully opening window that has ventilation under normal circumstances and the escape facility if the worst should happen.

**Tilt and Turn width/height ratio = Width should not exceed 1.5 times height**

# RunThru Horns

## Choices

RunThru windows create a practical alternative to the traditional vertical sliding window.

RunThru horn windows are available in a range of styles and in particular, can provide egress solutions where required.

## RunThru horns in Kömmerling O70 and C70

### Standard Specification:

- ✓ 70mm frame depth
- ✓ 'A' Energy Rated
- ✓ Available triple glazed

## Kömmerring Windows **AVANTIS**

All 'Choices' Kömmerring windows will be supplied with high specification locking.

### Standard Specification:

- A** High strength steel mushrooms
- B** Locking designed for optimal security and compression, 7-11 locking points per sash
- C** Die cast keep to retain locking mushrooms and provide night vent facility

### Optional upgrade to PAS 24:

- D** Hinge protectors

### Upgrade to PAS 24 Secured by Design Easy and Inexpensive

Secured by Design can sometimes require one laminate skin, this decision is made by the client and the police advisor.

See pages 28-29

### Energy Ratings

'Choices' windows are 'A' Energy Rated as standard where applicable

Energy Ratings - Calculation based on 'U' Value, air leakage and solar gain

### Window 'U' Values

Wide range available

'U' Value - the measurement of thermal performance of a window

## Window Energy Ratings & Glazing Upgrades

### Window energy ratings and 'U' value chart

\*\*Residence 9, R<sup>2</sup> and R7 available 'A' rated on request only

## 'Choices' Astragal Bar range

Astragal Bars can be fitted to most of the windows and doors within the Choices PVCU range

### 25mm ASTRAGAL BAR

for Kömmerring O70 and C70.

25mm clip fit Astragal bar with milled ends to match profile shape offering the traditional timber appearance.

### 21mm ASTRAGAL BAR

Residence 9, Imagine and Flush 70.

21mm Astragal bar with square cut external bar to sash/frame giving a tidy appearance.

Available Double or Triple Glazed  
Optional for Kömmerring 70

### 21mm ECLECTIC ASTRAGAL BAR

Available as optional (or if colour dictates) Astragal Bar for Residence 9

### 50mm ASTRAGAL BAR

Kömmerring 70 - Linear only

50mm wide clip fit linear astragal bar perfect for creating that cottage bar look or a mullion effect on doors

Can be used in conjunction with our 25mm Astragal Bar

## Radlington Cill

The Radlington cill is a modern interpretation of a traditional timber cill. Available as 55mm x 165mm for all our 100mm and 70mm window and door systems.

For R7 and R9 a 30mm x 165mm Radlington cill is supplied as standard (55mm cill available as an option).

Optional internal trims available.

55mm deep Radlington cill

# Be Sure You're Secure, with Intelligent Security Alerts.

## Only from Kubu.

### Did you know over 90% of alarm triggers in the UK are false alarms<sup>†</sup>?

Alarm Blindness is setting in – people are more likely to think 'Shut up!' than wonder what's up...

Kubu offers a smarter, more personal solution – providing accurate, timely and meaningful alerts like never before.

It's an intelligent alerting system that integrates directly with your locks, giving real-time security updates, directly to your pocket.

<sup>†</sup> Source: Origin Wireless AI: False Alarms in Security Systems - 08/08/23

## Key Features

### SureShield™

Enhance your home security with real-time critical notifications that override 'Do Not Disturb' for any attack, tampering or security threats.

### Geofence Alerts

Never forget to secure your home again. Kubu will send you an alert if you've forgotten to lock up, before you get too far from home.

### Perimeter Security

Secure every opening around the entire perimeter of your property, with Kubu's range of smart security sensors.

### Family Sharing

Keep loved ones connected by letting them check your security status via the app, offering shared peace of mind wherever they are.

### Scheduled Alerts

Scheduled alerts make life easier—like a bedtime reminder of the status of your doors and windows, ensuring your home is secure while you rest peacefully.

### Smart Integration

Turn off the heating when you open a window; Ask Alexa if your home is secure; or even sound the alarm. Kubu integrates with most smart home devices.

## Intelligent Sensors

- Physical and technological security combined
- Detects a breach before it even happens
- Reports open, closed, locked AND vent modes
- Tamper protection built in
- Completely concealed
- Calibration FREE

## Intelligent Controls

- Fully *Smart Home* integrated
- Works with most major smart-tech brands
- Controlled with the Kubu® smart phone app
- Uses AI/machine learning
- Can activate automations by turning a key, or opening a window...

## Intelligent Alerts

- Instant, Personalised Security Updates
- SureShield™ Attack Alerts
- SureSecure™ Geofence Alerts
- Scheduled Notifications
- Family Sharing
- SmartAir™/Weather Alerts\*

## Award winning smart security:

Choice of PAS024,  
3★ security.

# ULTION | ★★★ STAYS LOCKED

Every body approves

British Standards  
TS007:2014 3 star

Police  
Preferred Specification

Did you know?	9 seconds are all it takes for a burglar to snap a standard lock & break in.	12pm - 4pm is roughly the time most burglaries take place.
76% of burglars go through a door, not the windows.	64% of burglaries happen when someone is at home.	30% see the intruder in the home.

When the Ultion lock detects an attack, it goes into

## Lock Down Mode™

A hidden attack lock secures the mechanism.

### New. Folding key available

Ideal for bi-folding doors. Its rubberised head houses a hinge mechanism so as not to damage the opposite door frame.

### New. Find your Ultion Key with Apple® Find My

Our Keytag™ uses Apple's Find My network to help locate a lost key. It can notify an iPhone, iPad or Mac if the key has been left behind and sounds an alarm when it's nearby.

- ✓ White (chrome and gold effect - upgrades) handles
- ✓ Six point - six hook - locking
- ✓ Fully welded and reinforced
- ✓ Stainless steel adjustable rollers on a stainless steel track
- ✓ Slides on outer track as standard - inner track on request
- ✓ 28mm toughened sealed units with Low E Plus Argon gas and warm edge spacer
- ✓ PVCU profiles using 'greenline' 100% lead free stabilizer
- ✓ 20mm low aluminium threshold available (lower weather rating)
- ✓ Mechanically jointed outer frame available
- ✓ Sliding pane external as standard - can be specified to be internal
- ✓ 1.4W/m<sup>2</sup>K 'U' value with Low-E Plus glass
- ✓ 32mm triple glazing option
- ✓ Ultion One Cylinder

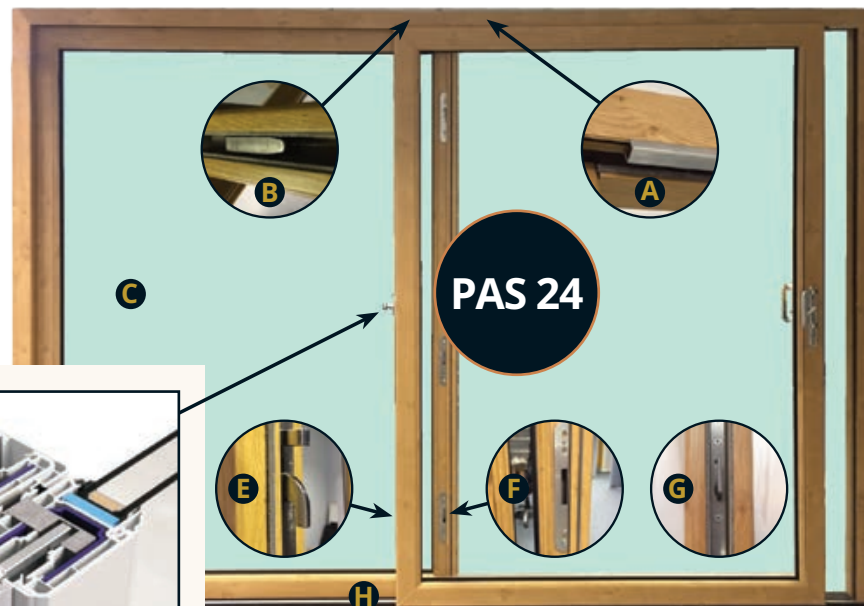

# PremiLine Sliding Patio Door

## PremiLine PRO PAS 24 Upgrade

'Lifetime Homes' and 'Document Q' compliant (2 and 3 pane doors only)

PAS 24 test data based on 2 pane patio door at 2450mm wide x 2260mm high

- A** Top rail 'dog bolt' keep
- B** Top rail 'dog bolt'
- C** 6.8mm laminate / argon / 4mm toughened
- D** Interlock handle - White, Black, Chrome
- E** Interlock hook bolts (x3)
- F** Interlock keeps (x3)
- G** Sash hook locks (x8)
- H** Sliding Sash Internal Only

### PremiLine PRO

Innovative hidden locking system with interlock handle eliminates the need for unsightly plunge bolts.

ULTION 1 PLUS

### Colour Options

Available both sides or on smooth white

Available on smooth white only

Available on smooth white only extra lead time

NB: Foiled on White profiles will show White on the insides of the head and base outer frame

Door Sizes - Maximum		
2 Pane 3000mm width x 2300mm height	3 Pane 4200mm width x 2300mm height	4 Pane 5800mm width x 2300mm height

NB: The height of the sash must not be more than 2.5 times larger than the width e.g. Frame height 2090mm means minimum frame width of 1600mm

### 20mm low aluminium threshold

# PVCU Bi-fold

*imagine*

## Choices

The 'Imagine' PVCU Bi-fold door combines the rigidity of aluminium and the aesthetics of timber with flush fitting sashes.

Its attention to detail in design, security and thermal performance all combine to make it a truly innovative way to transform any room.

### Standard Specification

- ✓ Available opening inwards or outwards
- ✓ 6 chambered stepped 70mm outer frame
- ✓ 5 chambered 80mm sightline sash
- ✓ 28mm Planitherm toughened sealed units with Argon gas and black warm edge spacer
- ✓ Sculptured beads with black gaskets
- ✓ Hinges and D handle supplied in black (white available)
- ✓ Magnets when required will match hinge colour
- ✓ Fully welded outer frame (mechanical jointed option available)

*Cranked lever/lever handle available in White, Black, Gold and Chrome*

*Internal Intermediate handle available in White, Black, Gold and Chrome*

*Hidden track*

*Fully adjustable hinges available in White or Black*

A firm load bearing lintel is required to ensure a solid fixing to the head.

Head detail showing optional 50mm extender (suitable for trickle vents)

65mm Standard Threshold

### Threshold and Trickle Vent Options

Glass to glass sightline of 172mm on all leaves

30mm low threshold\*\*

Room Divider  
15mm threshold for internal use only

Optional ramp for 30mm low threshold

\*\* If used externally draft proofing and weather performance will be reduced

# PVCU Bi-fold

### Features and Benefits

- ✓ Clean Contemporary look with slim sight-lines
- ✓ Outstanding thermal performance
- ✓ Available triple glazed
- ✓ 'U' value 1.4W/m<sup>2</sup>K double glazed
- ✓ 'U' value 1.2W/m<sup>2</sup>K with Low-E Plus glass
- ✓ 'U' value 1.0W/m<sup>2</sup>K triple glazed
- ✓ Fully adjustable slimline hinges
- ✓ Hidden track
- ✓ Choice of foil options
- ✓ Suited furniture
- ✓ Cranked lever/lever handle to allow tight stacking
- ✓ Premium quality magnets

Choices

# Imagine Bi-folding, Single and Double Doors

## Colour Options

# PVCU Doors

## imagine

## Choices

'Imagine' single or double doors are the ideal complement to any flush fitting window due to their flush fitting sashes.

To achieve the flush external match, the doors must open out. The double doors have no floating mullion and so offer slimmer sightlines.

### Specification:

- ✓ Available as open in or open out
- ✓ ULTION ONE Security Cylinder
- ✓ No floating mullion on French doors
- ✓ Fully adjustable slimline hinges
- ✓ Slim sightlines
- ✓ Equal sightlines
- ✓ Supplied with White or Black standard Lever/Lever handles
- ✓ 28mm Planitherm toughened sealed units with Argon gas and black warm edge spacer
- ✓ 'U' value 1.4W/m<sup>2</sup>K double glazed
- ✓ 'U' value 1.2W/m<sup>2</sup>K with Low-E Plus glass
- ✓ 'U' value 1.0W/m<sup>2</sup>K triple glazed
- ✓ Available triple glazed
- ✓ PAS 24 option available
- ✓ 30mm low threshold option

### Width Range (mm)

'Choices' doors have a high security specification as standard

### Standard Specification:

- A** ULTION 1 PLUS
- B** Kubu ready\*
- C** 25mm throw direct drive centre compression deadbolt provides high level of security in the centre of door
- D** Adjustable Dynamic hinge
- E** Fully adjustable security keeps
- F** Hook claws top and bottom operate in reverse directions for anti-lift
- G** Shoot bolt bullet point

See pages 28-29

\*Kubu smart kit purchase required by home owner

### Secured by Design

6.8mm laminate glazing and ULTION 3 Cylinder upgrade required.

### ULTION 3 Cylinder upgrade

#### Features and Benefits

- ✓ Eleven Pin Locking
- ✓ 294,970 Lock Combinations
- ✓ 100,000 Cycle Endurance Test
- ✓ Snap Tested Resistant Sections
- ✓ Drilling, Pick and Bump Tested
- ✓ Molybdenum Alloy Core
- ✓ Available on any new 'Choices' door
- ✓ All Locks can have the same key
- ✓ Single, Double, Sliding and Bi Folding
- ✓ Retro Fit into existing doors

Ultion Plus cylinders are available to fit to any new 'Choices' single, double or bi-fold door and can be retrofitted to existing 'Choices' doors

The basis of the high security is the Molybdenum Alloy Core (Centre section) which as soon as the lock comes under attack, goes into 'Lockdown Mode'. The first two sections are designed to 'snap' off - then the attacker will be confronted with the high security 'core'.

Please note Ultion Plus cylinders are only supplied with 3 keys per set, so additional keys may be required when ordering keyed alike cylinders as part of a set

### Panic Bars to BS:EN 14351 upgrade

Multi-point panic bar door lock with optional external access suitable for Single or Double doors. Double doors can be supplied offset to give maximum width for Master door.

PVCU doors are not recommended for high commercial usage

**External access option requires key for entry from outside**

Double doors supplied with panic bar to master door only, slave leaf operated by GZR finger operated bolt

### Standard Door Handle Range

Balmoral Handles

Available in all colours shown in the Letterbox Range below

### Traditional Door Handle Range

Available in all colours shown in the Letterbox Range below (apart from Black)

### Standard Letterbox Range

### Premium Letterbox Range

### Dynamic door hinge

### Mobility Threshold

Part M thermally broken mobility threshold available in anodised silver or gold with optional access wheel chair ramps

# Inotherm

## Choices

Inotherm aluminium doors are the crème de la crème of entrances and one of the most sought-after range of doors in Europe.

## EXCLUSIV Aluminium Entrance Doors

### 1 Above-standard profile thicknesses

Depending on the entrance door program you select, the thickness of the infill may be 54mm, 85mm and 105mm. Due to their above-standard thickness, all entrance doors provide you with outstanding thermal insulation and high energy savings.

### 2 Anti-bending expansion layer

For better statics, an expansion layer is added to all entrance doors, which prevents the bending or deformation of the entrance door and maintains the stability of the door even with large temperature swings.

### 3 Triple Glazing

All entrance doors feature glazing with three 6mm thick glass panes, which additionally insulate and enhance the safety of your home.

### 4 Additional seals

Our doors are sealed with three round liquid seals with vulcanised corner joints for better thermal insulation.

### 5 Thermal bridge interruption

A special heat barrier in the gap between the panel and the frame prevents heat from escaping and reduces your heating costs.

### 6 Aluminium threshold

A robust aluminium threshold with a thermal break reduces the energy flow in the lower part of the door and allows for the invisible mounting of the door frame.

## Inotherm Features:

- ✓ "Design Your Own Door" feature available
- ✓ Single doors up to 1260mm wide x 2700mm high
- ✓ Schuco patented profile
- ✓ 0.7W/m<sup>2</sup>k - 0.9W/m<sup>2</sup>k 'U' value range

# Alu Clad 'Choices' Timber

# Timber Aluminium Clad

## Flush Casement / Fully Reversible Windows

Outward opening flush casement windows with clean, straight edged timber frames and external aluminium cladding for a low maintenance solution. As an outward opening casement window, the functionality also allows for fully reversible for easy maintenance and cleaning.

The internal timber is, as standard, square edged (Softline) however it is also available with a slightly moulded, decorative finish (Classic).

### Specification

- ✓ Engineered (laminated) timber profiles
- ✓ Pine timber with external aluminium cladding
- ✓ Factory applied paint / clear on white tone lacquer
- ✓ Polyester Powder Coated (PPC) aluminium
- ✓ Casement and reversible hinges
- ✓ All multi-point locking
- ✓ Modern square profile - Softline
- ✓ Traditional moulded profile - Classic
- ✓ Factory fitted double or triple glazing
- ✓ Double glazed with overall U-value of approx 1.34W/m<sup>2</sup>K
- ✓ Triple glazed with overall U-value of approx 0.92W/m<sup>2</sup>K
- ✓ Externally beaded, drained and ventilated
- ✓ PAS24 option available

## Choices

Alu Clad timber windows and doors are manufactured from timber with an external aluminium cladding combining high levels of insulation and a low maintenance exterior finish

## 'Choices' Alu Clad Tilt and Turn

High performance inward opening, tilt & turn windows with an external aluminium cladding which provides a strong, durable external surface requiring minimal maintenance. This reduces future costs and improves the life expectancy of the product.

### Specification

- ✓ Timber only option available
- ✓ Engineered (laminated) timber profiles
- ✓ Pine or Oak
- ✓ Factory applied paint/clear lacquer/white tone lacquer options internally
- ✓ Tilt & turn, tilt only or turn only - all inward opening
- ✓ Circumferential fittings with tilt ventilation
- ✓ Factory fitted 24mm double glazing or 40mm triple glazing
- ✓ Internally beaded
- ✓ Overall U-value of (approx.) 1.2W/m<sup>2</sup>K - double glazed or 0.9W/m<sup>2</sup>K - triple glazed
- ✓ Shaped opening windows possible
- ✓ Durable external aluminium cladding
- ✓ PAS24 option available

## Alu Clad Doors

The 'Choices' Alu Clad door range is a high performance door system which includes:

- ✓ Entrance Doors
- ✓ French Doors
- ✓ Sliding Doors

With such a vast range of different solutions, each offering their own unique design features, we can offer a tailored solution perfect for your project.

# 'Choices' WARMroof

- ✓ Excellent thermal properties
- ✓ Cool in summer - warm in winter
- ✓ Added living space for all year use

## Tiled Effect Roof

Choices WARMroof systems are the most configurable and structurally robust, insulated and tiled roof in the UK market.

Whether you are looking to replace an existing conservatory roof only, refurbish an existing conservatory or build a brand new extension, our WARMroof technology underpins the design in each of our roofs to ensure we offer the very highest levels of thermal efficiency.

## Why consider a 'Choices' WARMroof?

- ✓ Award Winning! Voted Best Solid Roof System at the Conservatory & Orangery Awards
- ✓ Fully insulated tiled roof
- ✓ Fully guaranteed for 10 years with the tiles carrying either a 25 or 40 year warranty
- ✓ Choice of two tiles, yet it is structurally tested to take concrete, clay or slate tiles
- ✓ Fully compliant with Building Regulations throughout the UK and Scotland
- ✓ Thermal insulation of 0.15W/m<sup>2</sup>K
- ✓ Quick installation - less disruption to your home

One-piece top cap cover for decorative purposes which matches roof slate or tiles.

Tiles - either stock Envirotiles or TapcoSlate or slate, clay or concrete tiles.

Breathable, waterproof membrane between the top panels and tiles to assist with weatherproofing.

Retro-fit posts for extra support when using existing conservatory frames (when required)

Extra 50mm top panel insulation which insulates the bars and eliminates potential thermal bridging issues creating a true 'warm roof' structure.

100mm base panel insulation below the bars, retaining the heat within the room.

Fully insulated eaves, eliminating any risk of condensation.

## Choices

For those who have a requirement for more natural light there are rooflights and lanterns to consider

## Aluminium Lantern Roofs

The 'Choices' Korniche has classic timber lines and is constructed from the best in modern materials.

With the freedom to configure the strong, slender and carefully detailed rafters to create a bespoke design within the system parameters.

If you are going classic you can have symmetrical rafters with smaller glass spans and if you want to go modern, you can specify minimal rafters giving some of the biggest glazing spans available.

## Colour Options

Also available in a range of RAL or BS colours

Gloss White RAL 9010	Matt Anthracite Grey RAL 7016	Matt Black RAL 9005
-------------------------	----------------------------------	------------------------

# Rooflights & Lanterns

- ✓ Fast - quick and easy to install
- ✓ Strong - optimised to allow a minimal structure
- ✓ Warm - class leading thermal performance
- ✓ Slim - aesthetically stunning

## 'Choices' Opal Rooflights

### High Performance Aluminium Rooflight

The Opal Rooflight is a high performance rooflight that is modern, slimline and easily maintained, making it perfect for any home. It is pre-assembled and with a one piece fixing method, it is the fastest and most secure rooflight to install.

### Features

- ✓ Ultra modern, slimline design
- ✓ Low profile design makes for easy maintenance
- ✓ One-piece fixing method for fast installation
- ✓ Modular and bespoke sizes available
- ✓ Suitable for residential properties
- ✓ Thermally broken aluminium frame
- ✓ Available in any RAL colour

# Choices 'Ultra4'

Modern glass technology allows glass to be used for so much more than something to look through. We have carried out tests on a wide range of our products, so we are able to advise whatever the requirement.

## 'Ultra4' The 'FOUR IN ONE' upgrade

### Thermal Performance

'Ultra4' offers 'A' rated thermal performance

A special microscopic coating on the glass helps reflect heat back into the room offering savings of up to 22% on energy bills versus single glazing. With windows giving up to 26% of heat loss, choosing the right glass and windows, is an important step to making your home warmer.

### Noise Control

'Ultra4' helps reduce external noise

Making our homes quieter by reducing unwanted noise from outside, is an undoubted benefit. 'Ultra4' reduces noise ingress by having a transparent sound absorbing layer, built into the glass. This makes it 20% better at reducing noise, than standard 'Choices' glass.

### High Security

'Ultra4' offers greater security

A very strong transparent film is glued between two layers of glass for the outside skin of the sealed unit, making it much harder to break than standard glass. In the case of an incident, the glass will not shatter, but be held by the film insert.

### Furniture Fade

'Ultra4' helps reduce colour fading

Fabrics on furniture, Curtains and Carpets fade when exposed to the sunlight. This is caused by the Ultra Violet rays from the sun. 'Ultra4' is designed to block 99.6% of these UV rays which cause such damage to your fabrics, thus allowing them to remain fresh looking and so longer lasting.

# Glazing Enhancements

## Choices

Offer a range of glazing enhancements to create modern and traditional looks with the addition of Georgian, Astragal or leadwork options.

### Astragal Bars

Available in a range of colours. Externally and internally fitted giving an authentic look and feel to any window, door or conservatory.

### Diamond Leadwork

Handcrafted in lead. Patterns available in diamond, rectangular Queen Anne and a variety of designs.

### Internal Georgian Bars

Internally fitted bars available in 18 or 25mm. Various styles include single bars, curved hoops and grid pattern.

### Square Leadwork

Handcrafted in lead to create grid or border patterns.

### Obscure Glass

Different patterns to choose from with various levels of obscurity.

# Repair Kit Accessories

For topping up kits there are a range of accessories to choose from.

Hardwax

Aerosols

# König Repair Kits

## Choices

Easily repair scratches, minor gouges and scuff marks on foiled or non foiled PVCU windows and doors.

The blemishes created are minor in themselves, but major when the perfect job is expected.

König UK has the answer in that its repair kits are ideal when a PVCU window or door has been damaged in transit, when being installed or even when a customer has damaged the product.

## PVCU Window and Door Repair Kits

### Window Doctor Repair Kit

The Window Doctor Kit is designed for installers and allows them to carry out simple "on-site" repairs to popular Renolit foils.

### The Complete Window Repair Kit

The Complete Window Repair Kit is designed for service engineers to carry out cosmetic repairs reducing the need for expensive and time consuming remakes.

The kit contains repair products for White Extrusion, Golden Oak, Irish Oak and Rosewood Renolit foils.

## Training Courses

### The kits are supported by a range of excellent hands-on repair courses

These training courses are designed to ensure you to get the most out of the König product range. Held at the König "in-house" training centre in Coventry or training can be arranged to be held on-site at your premises.
